1. Purpose

English Study Peer-Tutoring

(hereinafter, this is called 'English Peer-Tutoring')

1. Our English Peer-Tutoring aims to improve the English skills and teaching techniques of English peer-tutors through their tutoring initiatives. At the same time, we aim to develop their English ability and study habits of learners.
2. Our goal is to cultivate teachers and educational support staff who have deepened their international understanding while improving their English ability.

2. Background

1. In our increasingly internationalized world, it is very important to understand diversity and communicate in one's own language. To do so, a high level of English proficiency is necessary. Teaching teachers to cultivate such human resources is an important part of opening up a bright future. For this reason, it is imperative to raise their level of English.
2. Since foreign language activities are introduced in the third grade of elementary school and English certification holders are given priority in teacher recruitment exams, securing teachers with high English language skills has become an urgent issue for each board of education.

3. Basic concepts

1. English tutoring does not require tutors to plan and conduct organized lessons as trained educators. So, do your best and try to respond to the needs and requests of individual students.
2. There is some flexibility in scheduling appointments. If you have other important appointments or matters, you can cancel or change the date and time. At that time, please contact your learners and decide on an alternative time for the next appointment.
3. However, do not cancel easily for unimportant reasons.

4. Points to keep in mind

1. Cancellation without notice is strictly forbidden.
2. Submit the detailed tutoring report within 24 hours after the tutoring session.

No payment will be made when a tutor fails to engage in tutoring activities, the activities are too few, and/or the reports are not submitted.
